Kofax ControlSuite Foundations for SMB

Cost effectively secure, govern and manage your documents with unified printing, document capture and workflow process automation.

THE DIGITAL AGE REQUIRES A NEW WAY OF WORKING

As small to medium businesses (SMB) strive to stay abreast of our digital economy, they must address their print, capture and workflow challenges. Like their larger counterparts small and medium organizations continue to rely on print to support their business activities, but in many cases, their efforts remain inefficient and costly with inadequate security.

On average SMB's lose $79,841 to cybercrime annually and 43% of cyberattacks target small businesses. In addition, reducing paper usage is rated as the top print management challenge, particularly amongst larger SMBs.

Your organization can leverage these integrated capabilities to adapt to the rapidly changing landscape of increased demand for information access combined with the increased threats to that information.

Kofax ControlSuite Foundations for SMB is a comprehensive print and capture management solution specifically designed for small to medium size businesses. We designed this new offering to address the challenges of businesses that need to do more with less—the heavy lifting of a powerful print and management solution on a smaller budget. Small and medium businesses can now cost effectively manage, secure, and govern their documents through unified printing, scanning, and workflow processes.

BENEFITS OF KOFAX CONTROLSUITE FOUNDATIONS FOR SMB

Kofax ControlSuite Foundations for SMB is an innovative, adaptable enterprise software solution within the Kofax Intelligent Automation platform that integrates best-in-class document capture, print management and output management capabilities to deliver key benefits in support of digital transformation initiatives, including:

Securing your business information to prevent unauthorized use, and maintain the organization's reputation and customer trust.

Increasing the productivity and efficiency of your workforce by enhancing and enriching information quality and detail, while simultaneously reducing errors and redundant manual tasks associated with managing and processing documents and information.

Ensuring that your operational processes remain compliant by automatically applying consistent business rules and tracking the movement and use of documents and information.

Kofax ControlSuite Foundations for SMB allows organizations to adopt the most intelligent, integrated, and innovative print and capture feature set cost effectively. It speeds productivity, minimizes security breaches, and reduces compliance costs.

KOFAX CONTROLSUITE FOUNDATIONS FOR SMB CORE SERVICES

Kofax ControlSuite Foundations for SMB combines "best-in-class" print management, document capture and output management capabilities to apply security controls, track and monitor compliance policies, and automate document collection, processing, routing and storage tasks. Each set of capabilities is enabled as a collection of sharable services that can be initiated at virtually any step in the workflow, including steps that begin as printing tasks, scanning, email receipt, system output streams or data exports, and many more.
