that work with virtually any
backend system

## ADVANTAGES AND BENEFITS

| Advantages | Benefits |
| --- | --- |
| Easy implementation and deployment | Quick installation and wizard-driven configuration with no scripting. Importing and exporting configuration profiles enables environments to go from concept to production quickly. |
| Scalability & central management | Robust architecture supports hundreds of devices per server and enables servers to be synchronized and managed centrally—complete with job monitoring and administrative notifications. |
| High availability | High availability ensures critical document workflows meet the strictest service levels and provides automated disaster recovery. |
| Load balancing | Enables servers to share document-processing load with no additional licenses needed. Provides flexibility to easily increase capacity as needed with virtually no additional cost. |
| Access the complete set of eCopy application connectors* | Industry-leading connectivity to the most popular email, fax server, document management, and other back-end systems with dynamic, real-time integrations. |
| Workflow automation with all eCopy extenders included* | Forms processing and barcode recognition extenders save significant document-handling time by automatically processing and routing transactional documents based on the content within them. |
| Platform extensibility | With wizard-driven connectivity into virtually any data source plus data validation, processing rules, and document delivery, eCopy ShareScan can integrate into virtually any system with no coding. An available ShareScan developer kit also enables connecting and extending eCopy to automate virtually any workflow. |
| Forms overlay extender | Allows the user-entered data to populate predefined PDF forms to accompany an attached file. |

## CONNECTORS AND EXTENDERS

The Kofax eCopy ShareScan Enterprise bundle includes all optional eCopy ShareScan connectors and extenders.*
These are just a few capabilities these add-ons provide to automate capture into enterprise applications and workflows:

### Connectors

- Collaboration (email, folder, fax server)
- Cloud storage (Dropbox, Google Drive, Microsoft OneDrive, SharePoint, etc.)
- Enterprise content management, document management and archival
- Legal (eDiscovery, case management)
- On-premise or hosted systems
- OneDrive for Business

### Extenders

- Image clean up/enhancement
- Database/list/lookup
- Barcode and form processing
- Mark-up (bates stamping, highlight/redact)
- Conversion into many formats
- Optical Character Recognition (OCR) for more than 100 languages
- 1D/2D barcode & form processing

### Licensing Information

- Kofax eCopy ShareScan Enterprise must be ordered in a minimum quantity of fifty (50) licenses for one customer.
- Existing customers wishing to add to their existing installation can purchase an eCopy ShareScan Enterprise license, but the features may vary depending on their software version.

* Note: eCopy ShareScan Enterprise does not include the Email and Folder Watching Service, or any licenses of eCopy PDF Pro Office. These licenses can be purchase separately.
